## Summary

I'm a passionate Fullstack Developer and Creative Technologist skilled in HTML, CSS, JavaScript, React, Next.js, Django, Supabase, and PostgreSQL, with a solid background in graphics design and 3D animation. I specialize in building visually engaging, high-performing, and scalable web applications that seamlessly merge functionality with aesthetics.

As a Chief Operating Officer (C.O.O) and an active freelancer, I bring a results-driven mindset and strong leadership experience to every project. I've successfully guided teams to deliver innovative digital solutions that empower businesses and enhance user experiences.

My certifications in Graphics Design, Web Design, Data Analytics, and Project Management complement my technical expertise, allowing me to approach development with both analytical precision and creative flair. Over the years, I've collaborated with clients across diverse industries—transforming ideas into powerful digital products and interactive web experiences.

From designing responsive frontends to developing robust Django REST backends and integrating Supabase for real-time data handling, I thrive on solving complex problems and optimizing systems for performance, security, and scalability.

Innovation drives everything I do. I continuously learn, adapt, and explore emerging technologies to stay ahead of trends and deliver top-tier solutions. My mission is simple — to build digital experiences that captivate users, empower businesses, and inspire growth.

Let's connect and create something remarkable together. 🚀

## EDUCATION

**Federal University Oye-Ekiti, Ekiti State**

Bachelor of Science - BS, Computer Science Sep 2021 - June 2026

## EXPERIENCE

**Frontend Developer**

freeCodeCamp

July 2023 - Present (2year 2months)

**Fullstack Developer**

Fiverr

Feb 2023 - Present (2year 3 months)

**Freelance Web Developer**

Jobgram

2022 - Present (1 year)

**Fullstack Web Developer**

Upwork

2024 - Present (1 year 2months)

## Licenses & Certifications

Jobber man soft skill certification - Jobberman Nigeria

Responsive Web Development - FreeCodeCamp LNWRCsBN

Python Programming - FreeCodeCamp LNWRCsBN
